THE FOLLOWING INFORMATION WAS PROVIDED BY DOMINION ENERGY SOUTH CAROLINA, INC. ("DESC") AND DOES NOT REPRESENT THE VIEWS OR FINDINGS OF THE COMMISSION.

A summary or explanation of the Solar Choice Metering Tariff proposed by DESC to include the rates and charges proposed (Subscription fee and any minimum charges):

Dominion Energy South Carolina, Inc. ("DESC") requests Commission approval for a new rooftop solar rate. According to DESC, the new rate is designed to reduce costs imposed upon all customers who do not utilize rooftop solar, while allowing rooftop solar customers to self-supply power without penalty. DESC proposes Solar Choice Tariffs that will be available to Residential and Small General Service Customers applying for new service after May 31, 2021. According to DESC, these tariffs are designed to better align the cost to serve rooftop solar customers and non-rooftop solar customers. Rooftop solar customers will take service subject to a monthly Basic Facilities Charge (\$19.50 for Residential; \$32.50 for Small General Service) and a monthly Subscription Fee (\$5.40 per kW-AC for Residential with a minimum Subscription Fee of \$16.20; \$6.50 per kW-AC for Small General Service with a minimum Subscription Fee of \$48.75). For power delivered from DESC to the

customer, customers will pay rates based upon seasonal on-peak and off-peak pricing, as set forth below:

- i. Residential
 1. Summer
 - a. On-peak: \$0.16749/kWh
 - b. Off-peak: \$0.06735/kWh
 2. Winter
 - a. On-peak: \$0.18417/kWh
 - b. Off-peak: \$0.06735/kWh
- ii. Small General Service
 1. Summer
 - a. On-peak: \$0.17030/kWh
 - b. Off-peak: \$0.06874/kWh
 2. Winter
 - a. On-peak: \$0.18764/kWh
 - b. Off-peak: \$0.06874/kWh

Additionally, rooftop solar customers will continue to consume self-generated power without penalty and will be compensated for excess energy delivered to DESC at new time-based solar generation rates. Currently, rooftop solar customers are credited for excess energy delivered to DESC at the customer's applicable retail electric rates. The new proposed rates were developed in accordance with approved avoided costs under Order No. 2020-244. These rates, which will be updated annually, are set forth below:

- i. Residential
 1. Summer
 - a. On-peak: \$0.03651/kWh
 - b. Off-peak: \$0.03622/kWh
 2. Winter
 - a. On-peak: \$0.03796/kWh
 - b. Off-peak: \$0.03622/kWh
- ii. Small General Service
 1. Summer
 - a. On-peak: \$0.03651/kWh
 - b. Off-peak: \$0.03622/kWh
 2. Winter
 - a. On-peak: \$0.03796/kWh
 - b. Off-peak: \$0.03622/kWh
